**SUBJECT:** Winch Completion  
**PURPOSE:** Integrated Wrecker – Final Installation & Dressout

## Winch

A temporary mounted unit will come with the part number **0311793 2SP INTEGRATED HARNESS** installed on the wrecker. Because the toolboxes on each side will be removed, the Node A3 connection to the part number **0311792 2SP FREE OUTPUT HARNESS** at Node B2 will need to be made by the final installer after the toolboxes are reinstalled onto the unit.

Connect A3 to B2:

## Part numbers

**0311792 2SP FREE OUTPUT HARNESS**

**0311809 INTEGRATED LH 2SPEED/FREE HARNESS**

**0311810 INTEGRATED RH 2SPEED/FREE HARNESS**

will come installed inside the toolboxes. It will be necessary for the installer to make the final connections to the junction box and control station switches.
